PROFILE

Senior iOS Developer with 5+ years shipping 12+ production apps to the App Store for international clients across the US, Ireland, UK, and Australia. Experienced in async collaboration across US/EU/APAC time zones. Open to remote and relocation with visa sponsorship. Specialist in payment systems (StoreKit, Apple Pay, Tap2Pay, NFC), VoIP/encryption (Linphone, Post-Quantum ZRTP), and emerging technologies (Blockchain, VR, Screen Time API, HealthKit, CoreML). Published author on Apple Books. Open-source contributor to SwifterSwift (14K+ stars).

TECHNICAL SKILLS

Languages & UI: Swift, SwiftUI, UIKit, Objective-C

Frameworks: Screen Time API, NFC, HealthKit, CoreML, ARKit, WidgetKit, WatchKit

Architecture: MVVM, Clean Architecture, MVC, Protocol-Oriented Design

Payments: StoreKit, Apple Pay, Stripe SDK, Tap2Pay, Bitcoin SV

VoIP & Security: Linphone SDK, Agora, PlivoVoiceKit, Post-Quantum ZRTP, HIPAA/GDPR

Backend & APIs: RESTful APIs, GraphQL, Firebase, Supabase, CloudKit, Core Data

Tools & CI/CD: Git, Jira, Fastlane, CI/CD, App Store Deployment & Release

WORK EXPERIENCE

o9 Tech | Senior Software Engineer (iOS)

Nov 2023 – Present

- Shipped apps for clients in Ireland, US: HiiKER (4.6★), Going Solo (4.6★), Block, Votari
- Architected Tap2Pay on iPhone with sub-second payment processing
- Implemented Screen Time API with Shield Configuration for bulletproof app blocking
- Integrated Bitcoin SV blockchain for vote anchoring (100K+ ballots)

Coder Crew LLC | iOS Developer

Apr 2023 – Oct 2023

- Developed Officetree VoIP using PlivoVoiceKit for businesses
- Built Reizor VR with ARKit and visionOS for 360° 8K streaming
- Developed Pay4Money crypto wallet for secure transactions
- Integrated Stripe and Apple Pay for payment processing

Pryvate Technologies | iOS Developer

Oct 2021 – Mar 2023

- Built Pryvate encrypted VoIP (4.4★) with Linphone SDK
- Implemented Post-Quantum ZRTP encryption for 50+ countries
- Built 1st-Response offline-first dictation for first responders
- Achieved HIPAA/GDPR compliance for healthcare and enterprise

Elentra Tech | iOS Developer

May 2020 – Sep 2021

- Built Focus Bear for Australian client (iOS, Mac, Watch) — 4.5★
- Developed Bright Start with Screen Time API, streak tracking
- Implemented Apple Watch complications for habit tracking
- Localized to German, 25% DACH region growth

KEY ACHIEVEMENTS

- 12+ production apps shipped to App Store
- 130,000+ trails served via HiiKER app
- 100,000+ ballots capacity in Votari blockchain voting system
- 14K+ GitHub stars (SwifterSwift contributor)
- Published 243-page book on Apple Books

EDUCATION

University of Gujrat

2015 – 2019

BS Software Engineering | CGPA: 3.21

LANGUAGES

English (Fluent) | Urdu (Native) | Arabic (Basics)

PROJECTS

Block | Physical Focus Device + App | ★ New

apps.apple.com/app/id6752846663

- NFC physical device + iOS app — tap to block distracting apps instantly
- Screen Time API with Shield Configuration for bulletproof app blocking

Votari | Decentralized Voting dApp | ★ New

apps.apple.com/app/id6748386729

- End-to-end encrypted voting system — zero-server, fully decentralized
- Public blockchain transparency, scales to 100K+ ballots with real-time tallying

HiiKER | Hiking Maps & Trail Navigation | ★ 4.6

apps.apple.com/app/id1470810597

- 130,000+ trails with offline maps, GPX import/export, and Garmin syncing
- 3D terrain, weather overlays — trusted by mountain rescue teams

Pryvate Messenger | Encrypted VoIP & Messaging | ★ 4.4

apps.apple.com/app/id914948581

- Full secure suite: voice, video, conference, messaging, email via Linphone SDK
- HIPAA/GDPR compliant — trusted for healthcare, legal, and enterprise use

Going Solo | Solo Travel Social Network | ★ 4.6

apps.apple.com/app/id1671515758

- Social platform connecting solo travelers worldwide with nearby discovery
- Trip matching by interests and destination with real-time chat

Focus Bear | ADHD Productivity & Habit App | ★ 4.5

apps.apple.com/app/id1673296334

- Built for ADHD/Autism — distraction blocking with Screen Time API across devices
- Cross-platform: iOS, macOS, watchOS with habit stacking and morning routines

Foqos | NFC App Blocker | ★ 4.9 (1K+ ratings)

apps.apple.com/app/id6736793117

- NFC/QR code tap-to-block using Screen Time API — free Brick alternative
- Home Screen widgets + open source with 1,000+ ratings

Bright Start | Morning Sunlight Habit App | ★ New

apps.apple.com/app/id6745139907

- Locks distracting apps until real sunlight scan — using Screen Time API
- Science-backed circadian rhythm reset with streak tracking

Fonder Cards | Couples Relationship App | ★ New

apps.apple.com/app/id6757206838

- Daily shared cards with WidgetKit Home Screen widget
- Mini games + surprise drops with clean UI optimized for video calls

1st-Response | First Responder Dictation | ★ Live

apps.apple.com/app/id1663503501

- Audio dictation for first responders — offline-first with Quick Resume
- Privacy-focused with zero data collection — built by Pryvate Technologies

Officetree | Business Phone & VoIP | ★ Live

apps.apple.com/app/id6444354321

- Business VoIP app with PlivoVoiceKit for calling, texting, and voicemail
- Multi-account support to switch between multiple businesses

OPEN SOURCE CONTRIBUTIONS

SwifterSwift | iOS Extensions Library | ★ 14,900+ stars

github.com/SwifterSwift/SwifterSwift

- 500+ native Swift extensions for iOS, macOS, tvOS, watchOS, Linux
- Contributed UIView tap gesture handling extension for simplified gesture setup

SwiftBSV | Bitcoin SV Library | ★ 16 stars

github.com/wtsnz/SwiftBSV

- Swift library for Bitcoin transaction creation, signing, and HD wallets
- Fixed Swift 6 / Xcode 16 compatibility across crypto and ECDSA functions

Kinde iOS SDK | Authentication Platform | ★ 11 stars

github.com/kinde-oss/kinde-sdk-ios

- Official iOS SDK for Kinde identity management and authentication
- Reviewed login_hint feature PR — pre-populates email in auth flows
